The plan in brief

- This free 16-week training plan for IRONMAN 70.3 Waco averages 10 hours a week, peaking at 13 hours in week 11, with recovery weeks 4, 8 and 12 and a two-week taper.
- It starts on Monday, 26 July 2027 and ends on race day, Sunday, 14 November 2027.
- A typical week has about 10 sessions — three swims, three rides, three runs and, in the first half, strength — with the time split roughly 45% bike, 30% run and 21% swim; the longest ride is 3:30 and the longest run 1:40.
- Adjusted for this course: flat and fast: live in the aero bars.

Adjusted for this course

Flat and fast: live in the aero bars
Only about 212 m of climbing, so position is free speed. Every race-power block from week 9 is ridden in the aero position, and long rides finish with 20 minutes down on the bars.

Five phases

Base	weeks 1-4	Aerobic engine and technique. Mostly easy, a little sweet spot, strength on Mondays.
Build 1	weeks 5-8	Threshold work on the bike and run, longer weekends, longer bricks.
Build 2	weeks 9-12	Race-specific: long efforts at 70.3 power and pace, the biggest weeks of the plan.
Peak	weeks 13-14	Race rehearsals: full fuelling, race kit, race pace off the bike.
Taper	weeks 15-16	Volume drops, intensity stays. Arrive fresh, not flat.

How hard is "easy"?

INTENSITY	RPE	BIKE	RUN	FEELS LIKE
Z1–2 · easy	2–4	55–75% FTP	conversational	Most of the plan. You could talk in full sentences.
Z3 · steady	5–6	76–87% FTP	marathon effort	Comfortably hard; short sentences.
70.3 race pace	6–7	75–82% FTP	a touch slower than half-marathon pace	The effort you can hold for the whole race. Practise it until it feels boring.
Sweet spot	6–7	88–92% FTP	—	Big aerobic gains for the time spent. Base-phase bike work.
Z4 · threshold	7–8	95–100% FTP	10 km race effort	Hard, controlled, a few words at a time.
Z5 · hard	9	106%+ FTP	short hill reps	Short reps only. Full recovery between.

CSS is your critical swim speed, roughly your pace for a hard 1,500 m. FTP is the power you can hold for about an hour. No power meter or test yet? Ride and run by the effort column.

A general plan for healthy adults who already swim, ride and run a little - not medical advice. If you have an injury or a health condition, check with a professional first.
